

Tanish Anam

Mumbai, India | tanuanam@gmail.com | 9819049575 | LinkedIn | GitHub

Education

- **Mukesh Patel School of Technology, Management and Engineering** 2021 – 2025
- B.Tech in Computer Science and Business Systems
- CGPA: 3.58 / 4

Skills

- **Languages:** C++ , Python, SQL, C#
- **Libraries / Frameworks:** NumPy, Pandas, Matplotlib, TensorFlow, QuantLib, OpenCV, Yfinance
- **Technical:** Machine Learning, Deep Learning, Data Structures & Algorithms, OOP, DBMS
- **Financial:** Equity Markets, Black-Scholes Model, Futures & Options, Volatility Modeling, Statistical Modeling, Risk Analysis, Time-series Forecasting
- **Tools:** VS Code, Jupyter Notebook, Google Colab, Azure, MySQL, Power BI

Experience

- Mondelez International** — Digital Workplace Print Services (Intern) May 2024 – July 2024
- Managed project schedules and reports for printer refresh projects across Australia, Bahrain and Nigeria.
 - Prepared and analysed weekly incident reports using Power BI.
 - Coordinated with network teams for IP address allocations and printer installations.
 - Configured SMTP settings to resolve scanning issues at 25 Alliant sites in India.

Projects

- Open Set Logo Detection and Blurring** (YOLOv5, CSPResNeXt-50) 2023 – 2025
- Implemented a two-stage open-set logo detection system using YOLOv5 and CSP ResNeXt-50.
 - Achieved $mAP_{50} = 0.81$ and $Recall = 0.74$ on the OSLD dataset.
 - Enabled identification and blurring of unauthorized logos.
- Apple Stock Price Predictor using Prophet & GARCH** (Python) 2024
- Performed time-series modeling and statistical validation of trends (Prophet) and volatility (GARCH).
 - Applied regression-based trend modeling within Prophet and volatility modeling using GARCH.
 - Validated predictions against actual stock data and assessed accuracy using MAPE.
- Iron and Steel Trading Database Management System** 2024
- Created a SQL database and executed relational queries.
 - Built a website using HTML, CSS, and Flask to integrate the database.

Car Care (.NET 8, Azure)

2025

- Built a cloud-hosted system using .NET 8 (Razor Pages), Entity Framework Core, and Azure SQL.
- Implemented dual inventory workflow and secure image handling via Azure Blob Storage.

Choose The Right "Option" (Black-Scholes Model, Equity Derivatives)

2025

- Computed option Greeks (Delta, Gamma, Theta, Vega, Rho) for Asian Payouts and ICICI Bank CE/PE options.
- Conducted quantitative analysis of derivatives using statistical and volatility models.
- Built Excel-based pricing models using the Black–Scholes model and prepared directional trading insights based on volatility, interest rates and delta movements.

Research Work

- **Open Set Logo Detection and Blurring using YOLOv5 and CSP ResNeXt-50** (2023 – 2025). Presented at ICAML 2025.

Achievements

- Finalist — VNR Designathon (2024)
- 6th Rank — Unstop National Level Consulting Competition (2023)
- 3rd Rank — Maharashtra Abacus Competition (2017)
- 2nd Rank — Inter School Chess Championship (2018)
- Captain — NES School Cricket Team (DSO Championship 2019)
